PEAK LIGHT SCALE LUPE

Attachment of an illuminating device to the Peak Scale Lupe 7X and 10X, widely known as a simple and accurate comparator, has greatly improved its inspection capabilities.

The Peak Light Scale Lupe consists of the magnifying unit and a section to insert two dry cell batteries with a connector in between. Any of the sections can be detached.

Moreover, since there are available a standard scale and 12 other scale models, select the model that fits your requirements.

(Enclosed in an attractive case)

Item No.:	No.1998	No.2028
Magnification:	7X	10X
Field of view:	24 mm ϕ	32 mm ϕ
Size:	36 ϕ \times 58 \times 175 mm	47 ϕ \times 45 \times 185 mm
Net weight:	118 gm.	134 gm.
Battery:	UM-2 (1.5V) \times 2	UM-2 (1.5V) \times 2
