Sound Level Meter class1 NL-52 Sound Level Meter class2 NL-42

Measure Sounds Reliably

Extremely user friendly ! Rion's NL-52 and NL-42 sound level meters provide full support for the measurement process.

START/STOP

The NL-52 and NL-42 were developed to eliminate the trouble of reading instruction manuals when conducting measurements. Large and easily viewable three-inch LCD color display. The unit (except for the microphone) is water-resistant, which means that it is unaffected by sudden rain showers. You can use rechargeable batteries to help cut down on waste, making this an environmentally friendly product.

* 025

Equipped with non-slip rubber grips

Large color LCD screen

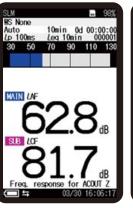

Three-inch LCD screen with a touch panel High resolution screen is easy to see indoors or outdoors and even in the dark.

No paper manual is needed.

User instructions and a help function can be easily accessed on the device.

Measurement Display (Simultaneous display of Main and Sub channel)

Water-resistant (Except for the microphone)

Guaranteed water-resistant to at least level IP54 (resistant to spraying water). Helps reduce failures caused by sudden rain showers.

Use of rechargeable batteries

In these models it is possible to use rechargeable batteries which make these meters environmentally-friendly. 24 hour continuous measurement is possible (when using eneloop[®] or dry alkaline batteries).

Please use the dedicated charger to charged eneloop® batteries

- When using eneloop batteries, please read the eneloop[®] battery instruction manual
 eneloop[®] is a registered trademark of Panasonic group.

Continuous detailed measurements for one month

This meter can be used to conduct long-term measurements, such as environmental measurements. (If an AC adapter is used)

Duration of recording NL-52/42

1000 h (approx. one month)

Example of detailed recording

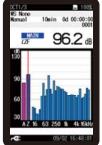

Previous model

200 h (approx. one week)

If the L_p is measured at 100 ms intervals and the L_{eq} is simultaneously measured at 10 min intervals over a 24 h period, the total size of accumulated data is approximately 74 MB (reference value)

Functionality can be extended by a range of options

Additional functions can be added, such as simultaneous logging of raw data (100 ms L_p) and processed data(Leq and other indices), frequency analysis reverberation time measurement and long-term data recording.

1/3 octave band analysis screen

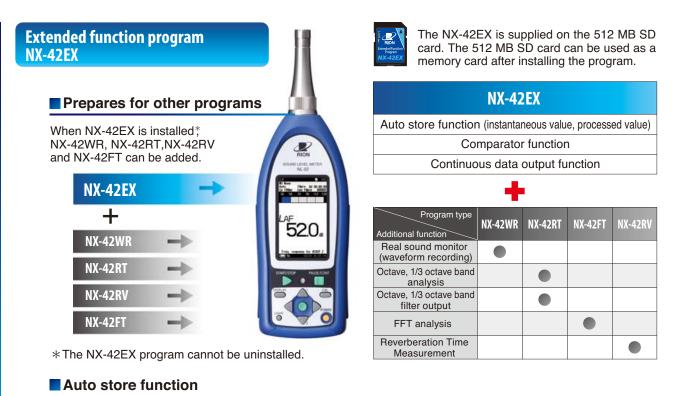

FFT analysis screen (x40)

Data management screen of AS-60 software

Optional program function list

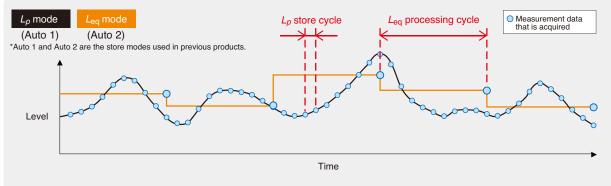

When the optional programs are installed, the following functions are added:

This function enables continuous measurement in L_p mode (instantaneous SPL) and L_{eq} mode (equivalent continuous SPL) to be conducted simultaneously.

Total measuring time of Auto store function Up to 1 000 h Equipped with a timer function

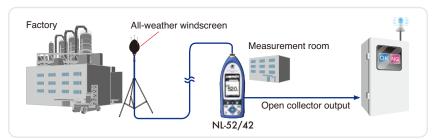

Lp mode (instantaneous SPL) and Leq mode (equivalent continuous SPL) concept

Comparator function

This function turns on when the open collector output exceeds the set value (max. applied voltage 24 V, max. current 60 mA, allowable dissipation 300 mW).

Continuous data output function

This function enables the continuous acquisition of instantaneous values and processed values during both USB and RS-232C communication.

This is a convenient function for users who can design their own control programs, where data has to be transferred continuously from the sound level meter to the computer.

Waveform recording program NX-42WR

Octave,

NX-42RT

The NX-42RT is supplied on the 512 MB SD card. The 512 MB SD card can be used as a memory card after installing the program. G trial version now available on our website

The NX-42WR is supplied on the 2 GB SD card. The 2 GB SD card can be used as a memory card after installing the program.

1/3 octave real-time

analysis program

This function enables users to record sounds and to process sound levels simultaneously. Recorded data can be played on computer and used for frequency analysis.

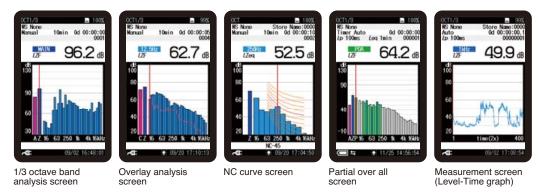

(Uncompressed waveform WAVE file)

Sampling at 48 kHz, 24 kHz, 12 kHz, Selection of 24 bit or 16 bit

Maximum re	ecording time	(16 bit)
------------	---------------	----------

0 (,		
Memory card Sampling frequency	512 MB	2 GB	32 GB
48 kHz	1 h	4 h	79 h
24 kHz	2 h	9 h	158 h
12 kHz	4 h	18 h	315 h

By adding the NX-42RT program to the NL-52/NL-42, octave band and 1/3 octave band analysis can be performed. Saved analysis results can be loaded and shown in an overlay graph display together with current analysis data. NC curve graph display and NC value calculation/display are also possible. Using the AS-60RT software, data can be utilized and managed on a computer.

Reverberation Time Measurement Program NX-42RV

The NX-42RV is supplied on the 512 MB SD card. The 512 MB SD card can be used as a memory card after installing the program. By adding the NX-42RV program to the NL-52/42, reverberation time measurements can be performed. The measurement method is the interrupted noise method. This program allows storage of reverberation time decay curves, T20/T30 calculation, Txx calculation (reverberation time calculation based on a user-defined interval) and averaged reverberation time results displayed on the SLM screen.

FFT analysis program NX-42FT

The NX-42FT is supplied on the 512 MB SD card. The 512 MB SD card can be used as a memory card after installing the program.

By adding the NX-42FT program to the NL-52/NL-42, FFT analysis can be performed. The analysis frequency range is 20 kHz, with 8 000 spectrum lines (200 displayed). Saved analysis results can be loaded and shown in an overlay graph display together with current analysis data. Maximum zoom ratio is x40, and the top list screen can show up to 20 lines.

System construction

Peripheral devices

All-weather windscreen **WS-15**

This windscreen is designed for outdoor installations. It helps to reduce wind noise and is equipped with rainproof features that satisfy the IPX3 water-resistant specifications. It is used with a microphone extension cable. (Mounting adapter WS15006 required separately) (For All-weather windscreen WS-15, use of ST-81 is recommended.)

Rain-protection windscreen

This screen protects the microphone against rain for a short period of time. The rainproof performance of this windscreen is designed to satisfy the IPX3 water-resistant specifications

Sound calibrator NC-75

This Sound calibrator conforms to IEC 60942 (JIS C 1515), class 1, providing a level of performance sufficient for calibrating the precision sound level meter.

Specifications	
Nominal acoustic pressure level	94 dB
Nominal frequency	1 kHz

Specifications

PISTONPHONE

NC-72A

Compliant with JIS C 1515: 2020 (IEC 60942: 2017) class LS/M, class 1/M Allows calibration with accuracy of ± 0.10 dB.

Specifications	
Nominal acoustic pressure level	114 dB
Nominal frequency	250 Hz

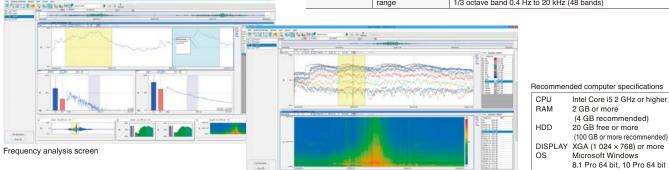

Tripod

This stand can be used for general acoustic measurements. The sound level meter and microphone can be mounted on the stand.

Waveform analysis software AS-70

This software allows you to load stored WAVE files from a RION sound level meter, vibration meter or data recorder. Octave, 1/3 octave, and FFT analyses can then be performed. Playback of the real sound files is also possible.

Waveform analysis	Calculations	Maximum value, Minimum value, Average value, RMS, Variance,
		Differential and integral calculus, HPF, LPF
Frequency weighting		Z, A, C, G, C to A, L _v (vertical) (JIS C 1510), L _v (horizontal) (JIS C 1510)
FFT analysis	Analysis points	32 to 65 536 points
	Display data	Power spectrum, Power spectral density, Spectrogram
Time weighting		10 ms, F, 630 ms, S, 10 s
Octave band	Applicable standards	IEC 61260 Class 1 (JIS C 1514 Class 1)
analysis	Analysis frequency	Octave band 0.5 Hz to 16 kHz (16 bands)
	range	1/3 octave band 0.4 Hz to 20 kHz (48 bands)

Frequency analysis screen

Complete software for environmental measurements

Data management software for environmental measurement AS-60

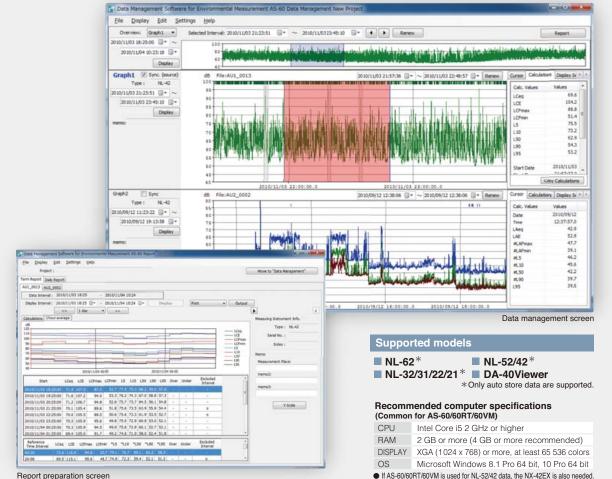

Data management software for environmental measurement AS-60 enables the graph display of measurement data, arithmetic processing, excluded sound processing, preparation of reports, output of files, and playback of real sound files.

Easy to use

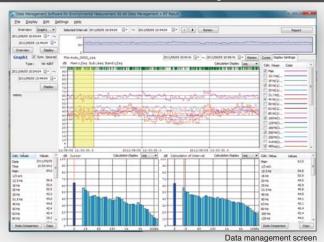

Reports easy to prepare

Simultaneous display of multiple Data stored in a data recorder can Data combination data items (up to 8 data items)

be loaded (CSV file for DA-40 Viewer)

Data management software for environmental measurement AS-60RT (Includes the octave and 1/3 octave data management software)

Adds support for handling octave band analysis data to AS-60

AS-60RT is for managing NX-62RT/42RT or NA-28 data on a computer.

Supported models

SX-A1RT* NX-42RT*

NX-62RT* **NA-28*** *Only auto store data are supported.

Data management software for environmental measurement AS-60VM (Includes the vibration level data management software)

Adds support for handling data measured with VM-55EX/53A to AS-60

Supported models

VM-55EX*

VM-53A* * Only auto store data are supported.

		utput voltage	2.5 V, 25 mV / dB at bar graph display full scale		
		output	Output AC signals using a frequency weighting characteristic selected by		
			processing or by A, C, Z-weighting.		
	6	utput voltage	1 V (rms values) at bar graph display full scale		
		nparator	Turns on when the open-collector output exceeds the set value		
		out*2	(max. applied voltage 24 V, max. current 60 mA, allowable dissipation 300 mW).		
USB			Allows USB to be connected to a computer and recognized as a removable dis		
000			Allows USB to be controlled via communication commands		
BS-2	320.0	ommunication	Allows for RS-232C communication via use of a dedicated cable		
Data continuous output*2					
Type of Instantaneous value			Le		
	ata	Processed value	Leg, Lmax, Lmin, Lpeak		
		nterval	100 ms		
		irements	Four IEC R6 (size AA) batteries (alkaline or rechargeable batteries) or external power supply		
	· ·	life (23 °C)	Alkaline battery LR6 (AA): 26 h Ni-MH secondary battery: 25 h		
	unory		At the maximum *Depends on the setting		
A	C ada	nter	NC-98E		
		power voltage			
		consumption	Approximately 90 mA (normal operation, rated voltage)		
Ambi		Temperature	-10 to +50 °C		
		Humidity	10 to 90 % RH (non-condensing)		
		,	IP code: IP54 (except for microphone)		
Dustproof / water-resistant performance *4			See precautions regarding waterproofing		
Dimensions, weight		-	Approx. 250 (H) x 76 (W) x 33 mm(D), approx. 400 g (with batteries)		
			Storage case x 1, Windscreen WS-10 x 1, Windscreen fall prevention rubber x 1,		
Supplied accessories		Hand strap x 1, LR6 (AA) alkaline batteries x 4, SD card 512 MB×1 (NX-42EX			
			preinstalled model only)		

Options

Product name	Product number
Extended function program (Inst.on 512 MB SD card)	NX-42EX
Waveform recording program*2 (Inst.on 2 GB SD card)	NX-42WR
Octave, 1/3 octave real-time analysis program *2 (Inst.on 512 MB SD card)	NX-42RT
Reverberation time measurement program*2 (Inst.on 512 MB SD card)	NX-42RV
FFT analysis program*2 (Inst.on 512 MB SD card)	NX-42FT
Data management software for environmental measurement	AS-60
Data management software for environmental measurement (Includes the octave and 1/3 octave data management software)	AS-60RT
Data management software for environmental measurement (Includes the vibration level data management software)	AS-60VM
Waveform analysis software	AS-70
SD Card 512 MB	MC-51SD1
SD Card 2 GB	MC-20SD2
SD Card 32 GB	MC-32SP3
AC adapter (100 V to 240 V)	NC-98E
Battery pack	BP-21A
Microphone extension cables	EC-04 (from 2 m)
BNC-Pin output code	CC-24
Comparator output cable	CC-42C
RS 232C serial I/O cable	CC-42R
USB cable	Generic USB cable can be used
Sound calibrator	NC-75
All-weather windscreen	WS-15
Windscreen mounting adapter	WS-15006
Rain-protection windscreen	WS-16
Sound level meter tripod	ST-80
All-weather windscreen tripod	ST-81

*1 Use Rion fully guaranteed products. *2 NX-42EX required (sold separately). *3 NX-42WR required (sold separately). *4 Protection against harmful dust and water splashing from any direction.

Precautions regarding waterproofin

Before use, verify that the rubber bottom cover and the battery compartment lid are firmly closed. To maintain the water and dust proof rating, internal packing replacement is required every two years (at cost).

RION CO., LTD. is recognized by the JCSS which uses ISO/IEC 17025 as an accreditation standard and bases its accreditation scheme on ISO/IEC 17011. JCSS is operated by the accreditation body (IA Japan) which is a signatory to the Asia Pacific Accreditation Cooperation (APAC) as well as the International Laboratory Accreditation Cooperation (ILAC). The Quality Assurance Section of RION CO., LTD. is an international MRA compliant JCSS operator with the accreditation number JCSS 0197.

 This product is environment-friendly. It does not include toxic chemicals on our policy.
 This product is certified to an International Protection rating of IP54 (dust protected and resistant to splashing water). This leaflet is printed with environmentally friendly UV ink.
