

Electronic Balances

TX/TXB/TW Series

TX_{series}

► 4200.00g

Clearly visible even in dark places

TX2202L, TX3202L, TX4202L

TX/TW_{series}

► 420.000g

Capable of performing delicate jobs

TX223L, TX323L, TX423L, TW223L, TW323L, TW423L

Wider applications ranging from
smaller to larger objects

Value with no compromise

TXB_{series}

► 6200.0_g

Taking on weighing tasks everywhere

TXB2201L, TXB4201L, TXB6201L, TXB6200L

Light, strong, high-quality design
can be operated by batteries

TXB_{series}

► 620.00_g

Reliable partner that creates weighing desires

TXB222L, TXB422L, TXB622L, TXB621L

Performance to allows quick
weighing of smaller objects anywhere
Creates weighing enjoyment

TX/TXB/TW Series

Look, Touch

WindowsDirect Communication Function Only a cable is needed to send weighing data to a computer

TX / TW
TXB

Send balance data to Excel or other Windows applications without any data communication software installation required. All you have to add is one RS-232C cable. By combining standard AutoPrint functions with typical spreadsheet functions, even difficult applications can be easily automated. If you'd like to use "WindowsDirect" with "Windows 7" "Windows Vista", or USB port, please contact to our distributors.

Comparator function

TX / TW
TXB

Compare samples to target values or pass/fail criteria and clearly indicate the results.

RS-232C interface

TX / TW
TXB

All models include standard RS-232C interface for easy integration with other devices and computers.

Expanded Piece Counting function

TX / TW
TXB

Unit weights of up to 5 different samples can be easily entered, stored and recalled for use.

Power saving function

TX / TW
TXB

When weighing operation ends, power automatically turns off after a fixed or pre-set time.

Fast and flexible calibration

TX / TW
TXB

Balance display provides prompts for the calibration procedure and accepts your choice of external calibration weight.

Many useful functions included

TX / TW
TXB

- Alpha-numeric menu display
- Up-front level indicator on display panel
- Simplified door cleaning
- Stainless steel pan
- Choice of weighing modes
- Zero tracking function and settings
- Continuous data output function

Streamlined design for anti-theft options

TX / TW
TXB

Industry-standard Kensington Security Slot accommodates the widest variety of optional anti-theft security devices.

Change among many weighing units and functions with a single touch

TX / TW
TXB

In addition to grams (g), weigh in %, number of pieces, ct, kg, mg, lb, oz, TTI, etc. or a custom conversion unit, more than 20 units in all. Change quickly from display of % or counting to gram weight (g) display.

Can be used anywhere with battery power

TXB

Power the TXB series balances by AC adapter or batteries.

The beginning of the new standard

New

Easy Setting

Best fit to weighing application

TX / TW
TXB

Quickly adjust the desired ratio of stability and response for every application, even during measurement, with one-touch operation.

New

Menu Operation Key

Easy-to-operate key layout

TX / TW
TXB

Menu navigation keys are separated from weighing operation keys and arranged in a familiar 5-way navigation circle. Up, Down, Right, Left and Enter are the simple operational steps.

New

Touch-key Internal Calibration

TW

Press just two keys to calibrate the balance whenever calibration is necessary.
Calibration is very fast, taking only 15 sec.

Durable, high-performance aluminum alloy mass sensor

UniBloc Since 1989

TX / TW

The TX/TW series incorporates a one-piece aluminum alloy mass sensor technology (UniBloc), first introduced by Shimadzu for precision balances in 1989. It excels in performance, and resists deterioration and damage by ordinary impacts. The UniBloc's compact, uniform structure replaces 70 parts found in a conventional electromagnetic balance sensor assembly and ensures stable temperature characteristics, excellent response time and stable corner-load performance. The UniBloc design permits a consistency of production that assures reliability and a long operational life.

3 Benefits of UniBloc.

Fine measurements are assured with sliding glass door windbreak system

TX / TW

TX/TW models with 1mg minimum display feature a sliding glass door type windbreak as standard configuration. The highly transparent system includes semi-transparent corners and maximum door opening capability.

Illuminated display provides comfortable display visibility in all settings.

TX / TW
TXB

A liquid crystal indicator with an attractive light blue backlight is standard on all models. The TXB series has an additional power-saving feature: the backlight automatically shuts off when idle and lights up again when weighing operations resume.

Specifications

TX/TW series

Model	TX223L / TW223L	TX323L / TW323L	TX423L / TW423L	TX2202L	TX3202L	TX4202L
Capacity	220 g	320 g	420 g	2200 g	3200 g	4200 g
Minimum Display	0.001 g	0.001 g	0.001 g	0.01 g	0.01 g	0.01 g
Repeatability	0.001 g			0.01 g		
Linearity	±0.002 g			±0.02 g		
Operating Ambient Temperature (°C)	5-40					
Temperature Coefficient Sensitivity (ppm/ °C) (10-30°C)	±3					
Pan Size (mm) approx.	ø110			167(W) × 181(D)		
Main Body Dimensions (mm) approx.	206(W) × 291(D) × 241(H)			200(W) × 291(D) × 80(H)		
Weight (kg) approx.	TX: 3.8 kg TW: 4.2 kg			2.8 kg		
Power Requirements	12V, 1A
