

TM-730**DISPLAY**

- Dual LCD display :
The maximum reading on the primary display is 1999. The maximum reading on secondary display is 999.
- Take accurate measurement for humidity, temperature, wet bulb and dew point.

FUNCTIONS

- Quick-response capacitance sensor.
- Max/Min/Avg and data hold.
- Auto power off with disable function.
- Low battery indication.

SPECIFICATIONS :

Temperature ranges	-20°C~50°C / -4°F~122°C
Temperature Accuracy	±1°C/ 1.8°F
Temperature Resolution	0.1°C / 0.1°F
Temperature update rate	500ms
Dew point and wet bulb function	
Relative humidity accuracy	3.5% @25°C for 20%-90% RH, 5% for 1%~19.9% and 1%~99%
Relative Humidity Resolution	0.1% RH
Relative Humidity response time	below 10 second
Dimension	107*48*23mm(L*W*H)
Weight	80g
Power	2 batteries 1.5V AAA
